

Muhammad Ashiqe

MERN Stack Developer

📍 Kerala ✉ ashique.dev@gmail.com ☎ 9562647893 🌐 Portfolio 🔗 LinkedIn 🐙 GitHub

Profile Summary

MERN Stack developer with a solid grounding in JavaScript, React.js, Node.js, Express.js, and MongoDB through personal projects and on-site internships. Eager to apply clean-code principles and modern tooling in a collaborative team environment to deliver user-centric web applications and continue growing as a full-stack engineer.

Technical Skills

- **Languages & Runtimes:** JavaScript, TypeScript, Node.js
- **Front-End:** React.js, Redux Toolkit, Tailwind CSS, Bootstrap, HTML5, CSS3
- **Back-End & Real-Time:** Express.js, Socket.IO, RESTful APIs
- **Databases & ORM:** MongoDB, Mongoose
- **Dev Tools & Platforms:** Git/GitHub, Postman, Vite, Material UI, Figma
- **Authentication & Architecture:** JWT, Firebase Auth, MVC, OOP

Projects

TechTribe | *Social Media Platform for Tech Professionals* Live | GitHub

- **Stack & Architecture:** MERN (MongoDB, Express.js, React.js, Node.js) with MVC structure for modular, maintainable code.
- **Core Features:** User registration/login with email verification (crypto tokens & Nodemailer), post creation, comments, follows, and content reporting with flagging workflows.
- **Admin Dashboard:** Clean UI with real-time Chart.js graphs for user growth and post metrics; manage users, posts, and moderate content via an efficient reporting system.
- **Security:** Protected routes secured with JWT and bcrypt.
- **Hosting:** Frontend on Render, Backend on Render with environment-based configuration.

Fragrencia | *Perfume E-commerce Platform* Live | GitHub

- **Stack Architecture:** MERN (MongoDB, Express.js, React.js, Node.js) following MVC for clean separation of concerns.
- **Product Cart Management:** CRUD APIs for product listings, dynamic cart operations, and order processing tested via Postman.
- **User Experience:** Browse and filter fragrances, add favorites, and checkout using Cash on Delivery or Razorpay.
- **Media Handling:** Integrated Cloudinary for optimized image storage and delivery.
- **Admin Analytics:** Chart.js dashboards showcasing sales trends, user growth, and order summaries.
- **Hosting:** Frontend on Netlify; Backend on Render with secure environment variables.

connectU | *Real-Time Chat Application* Live | GitHub

- **Stack Architecture:** MERN with Socket.IO, structured on MVC for maintainable code.
- **Real-Time Chat:** Instant one-to-one and group messaging powered by Socket.IO.
- **API Testing:** RESTful endpoints for auth, messaging, and group management (create, rename, leave) validated via Postman.
- **Security:** User sessions secured with JWT and password hashing with bcrypt.
- **Media:** Cloudinary integration for avatar upload and delivery.
- **Hosting:** Frontend on Vercel; Backend on Render with environment-based setup.

Mini Projects

QuickBite React, Node.js, Stripe	Live GitHub
• Food delivery platform with category filtering and cart management • Integrated Stripe payment gateway with secure checkout flow	
MovieMap React, Firebase, TMDB API	Live GitHub
• Movie discovery platform with Firebase-powered watchlist • Integrated TMDB API for real-time movie data and trailers	
CoinWatch React, Chart.js, CoinGecko API	Live GitHub
• Real-time cryptocurrency price tracker with search and multi-currency conversions • Interactive historical charts with EUR/INR/USD support using CoinGecko API	
Media Player React, YouTube IFrame API, JSON Server	Live GitHub
• YouTube video organizer with drag-and-drop categorization and watch history tracking • JSON web server backend for persistent storage of playlists and user preferences	

Experience

MERN Stack Intern , Luminar Technolab – Kochi, India	Nov 2024 – Present
• Developed full-stack applications using MongoDB, Express, React, and Node.js (MERN) ecosystem • Implemented REST APIs with JWT authentication and managed state using Redux Toolkit • Created responsive UIs with React functional components and React Router navigation • Worked with Mongoose ORM for database operations	

Education

Bachelor of Computer Applications (BCA)	2021 – 2024
Christ College, Mysore	
CGPA: 8.2/10.0	
<i>Relevant Coursework:</i> Data Structures, Web Development, Database Systems	
Software Engineering, Object-Oriented Programming
